SKILLS

Testing Expertise

- UI, API, Manual, Automation

Test Automation & Frameworks

- Automation Framework Development
- Selenium (Java + Python)
- TestNG, Cucumber, Behave, Rest Assured, Maven

DevOps & CI/CD

- CI/CD Pipeline Integration
- Jenkins, Azure DevOps, GitHub

Defect & Test Management Tools

- JIRA
- VSTS
- Postman

PROFILE HIGHLIGHTS

- Strong expertise in **software testing methodologies** with hands-on experience in **Functional, Non-Functional, Automation, and Manual Testing** across **Web and API platforms**
- Leading a **high-performing QA team of 6 members** handling cross-functional projects involving diverse web applications and services, managing both **functional and automation testing**
- Skilled in guiding teams through the **Agile-Scrum** framework, ensuring smooth delivery of project milestones
- Designed and implemented **Test Automation Frameworks** using **Selenium** for Web UI and **REST Assured** for Web Services, driving simplification and efficiency
- Gained domain experience in **Telecom, Retail, Capital Project Management Systems (CPMS), GRC and Supply Chain**
- Proficient in **Core Java, Python**
- Well-versed in **CI/CD processes**, integrating automated test suites into **build and deployment pipelines**
- Excellent **communication, team management, and client interaction** skills
- Proactive in **knowledge sharing** and supporting teams in issue resolution
- Mentor team members in **automation scripting, test execution, and skill enhancement**
- Active contributor in **Centers of Excellence (CoE)**, creating automation solutions aligned with industry best practices
- Serve as a member of the **QA interview panel**, contributing to team building and recruitment

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

PES University (Affiliated to VTU),
Bangalore — 2012

ACHIEVEMENTS

- Recognized with **Bravo** and **Spot Awards** at Aurigo and IBM for demonstrating leadership, initiative, and high-impact delivery
- Achieved **Star Performer** recognition multiple times at Wipro for high-quality delivery and innovation

CERTIFICATIONS

- Microsoft Azure Fundamentals – AZ900
- IBM Agile Explorer (2023)
- IBM Consulting Way Habits – Foundational (2023)
- Chemicals and Petroleum Insights and Solutions – Silver (2024)
- IBM Delivery Central Platform Foundations – (2025)

WORK EXPERIENCE

SENIOR ADVISORY TECHNICAL SERVICES SPECIALIST

IBM India Pvt Ltd • Bangalore • Apr 2022 – (Present)

Contributed to **ServiceNow**, a cloud-based workflow automation platform, by developing **Python-Selenium** test scripts and integrating test suites into **CI/CD pipelines** using **Azure DevOps** and **GitHub Actions (YAML)**. Provided team-wide support, conducted automation feasibility analysis, and **led pre-UAT regression execution**. In GSOIS, a global order system for Sony, designed and executed **ETL/UI** test cases, presented **client demos**, and **led a QA team**.

ASSISTANT CONSULTANT

Tata Consultancy Services • Bangalore • July 2021 – April 2022

I was part of a dedicated Test Automation team for one of the largest retail clients, responsible for automating Sprint-based functionalities including **UI, API, and non-functional testing**. My role involved enhancing existing test automation frameworks, developing utilities based on evolving requirements, and ensuring alignment with industry best practices. I maintained and updated the **automation frameworks** regularly, configured the code review process using **Git Merge Requests**, and **integrated test suites into the CI/CD pipeline**, linking them with the application's build and deployment processes. Additionally, I was involved in **test execution, reporting, and defect management throughout the testing lifecycle**.

SENIOR SOFTWARE DEVELOPER - TEST

Aurigo Software Technologies • Bangalore • Feb 2018 - June 2021

Worked as a **Senior Software Developer – Test** on a **Capital Project Management System (CPMS)** - a robust enterprise solution designed to assist infrastructure stakeholders such as project managers, operators, and construction teams in efficiently managing and analyzing large volumes of project-related data. Key responsibilities included **designing and executing manual test cases across various modules**, **performing end-to-end functional testing**, and **meticulously logging and tracking defects**. **Collaborated closely with Business Analysts and Developers** to investigate and resolve issues, ensuring application stability. Additionally, **developed and executed UI and API automation scripts** using existing frameworks, generated test execution reports for client review, and actively contributed to **SIT, UAT, and production deployment phases** to ensure seamless and high-quality releases.

SENIOR PROJECT ENGINEER

Wipro Technologies Ltd • Bangalore • Aug 2012 - Feb 2018

Started my career with Wipro Technologies as a Fresher in the **Production Support team**, where I was responsible for debugging **Java and PL/SQL** procedures to identify **root causes of incidents** and coordinating with the development team for resolution. In the subsequent role, I transitioned to a QA role for a **Master Data Management (MDM)** project, where I wrote detailed test cases, prepared test data, and performed **UI and database testing**, followed by publishing structured test result reports. Later, I was assigned to projects involving electronic payment systems and devices, including work for a large retail client. In this role, I designed and developed automation frameworks, **set up test execution infrastructure**, and developed and executed automated test scripts to **validate product functionalities across platforms**.
